Ghost signs WALKING TOUR

OVER 25 GHOST SIGNS EXIST WITHIN THE compact “Old Town” area. A few are hardly visible, due to exposure, paint quality, tree foliage, and newer buildings which now obscure their view. Below, we offer 19 locations of one to two signs each.

In 1997, a private firm performed a survey of Fort Collins’ ghost signs for the city’s preservation purposes. Visit <http://www.fcgov.com/historicpreservation/pdf/ghost-signs-doc.pdf> for further information about these signs, including dates, artists, and historical context.

THE NEIGHBORHOODS THAT SURROUND the Armstrong Hotel once housed at least 17 old neighborhood markets, *not including* the actual “Old Town” area. Here, we offer 5 nearby markets which take our guests through some of our favorite residential areas.

Many thanks to www.LostFortCollins.com, for allowing us to reproduce a portion of its original “Tour de Neighborhood Markets”. Visit [Lost Fort Collins](http://LostFortCollins.com) to view a full list of markets.
